## Can I bring my own data to analyse at an MLPA workshop?

This article was retrieved from [support.mrcholland.com](http://support.mrcholland.com) on Thursday, 17th June 2021.

Unfortunately, it is usually not possible to analyse personal MLPA experiments at one of our in-person [MLPA workshops](#) due to the limited time available. It is never possible at a [virtual MLPA workshop](#).

In our in-person workshop we do analyse data from several example cases that demonstrate the different aspects of an experiment that you may encounter while analysing your data with Coffalyser.Net.

You are always welcome to [contact us](#) if you want personal help with the analysis of your data.
