How can I renew my Coffalyser digitalMLPA license?

This article was retrieved from support.mrcholland.com on Tuesday, 9th August 2022.

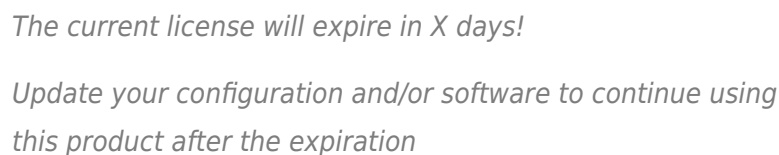

This article is about Coffalyser digitalMLPA for digitalMLPA data analysis. For information about Coffalyser.Net for conventional MLPA data analysis, see [this article](#).

It is necessary to renew the free license for Coffalyser digitalMLPA when you receive the following message.

No valid Coffalyser digitalMLPA license found in the configuration

You may also renew the license when you receive a warning of an approaching license expiration date.

The current license will expire in X days!
Update your configuration and/or software to continue using this product after the expiration

Procedure

To renew the license, download a new version of the Coffalyser digitalMLPA software package from your website account. Remove or archive the old version, and extract the new package. No further installation is required.

Background

We are continuously improving Coffalyser digitalMLPA. To ensure that everyone benefits from the latest improvements, licenses for older versions of the software are not renewed indefinitely. This ensures that older versions of the software are no longer used. As a result of this system, licenses may also periodically have to be renewed if there is no new version of the software available.

A license for Coffalyser digitalMLPA is free and will remain free in the future. Read more about our licensing system in [this article](#).
