How can I resize data grids in Coffalyser.Net?

This article was retrieved from support.mrcholland.com on Thursday, 25th April 2024.

Note
This article is part of the Coffalyser.Net Tips & Tricks collection.
You can resize the rows and columns of all data grids in order to fit them on your screen. This is particularly useful for experiments with a large number of probes and/or a large number of samples.

Column widths can be adjusted in the following ways:

- With the 🔲 🔲 buttons in the toolbar above the grids.
- With the keyboard shortcuts Ctrl + Shift + Minus and Ctrl + Shift + Plus.
- By clicking the right mouse button and selecting the desired option from the Resize Column Width submenu.

  Similarly, row heights can be adjusted in the following ways:

- With the 🔲 🔲 buttons in the toolbar above the grids.
- With the keyboard shortcuts Ctrl + Alt + Minus and Ctrl + Alt + Plus.
- By clicking the right mouse button and selecting the desired option from the Resize Row Height submenu.
