Video: How does MLPA work?

This article was retrieved from support.mrcholland.com on Friday, 29th March 2024.

Note

This video is about conventional MLPA. For an introductory video about digitalMLPA, see [this article](#).

MLPA® is the gold standard for DNA copy number quantification and is used to study both hereditary disorders and tumours. This animation explains how the MLPA technique works.

Please note that subtitles are available in several languages.

In case you're unable to view the video on YouTube you can also download it [here](#). Chinese customers can also access the video at [Youku](#).
