Video: What is SALSA digitalMLPA?

This article was retrieved from support.mrcholland.com on Sunday, 1st August 2021.

This video is about digitalMLPA. For an introductory video about conventional MLPA, see [this article](#).

SALSA[®] digitalMLPA[™] is a technique for the copy number quantification of up to 1000 target sequences. The technique combines the conventional MLPA technology with next-generation sequencing (NGS). This video briefly describes what digitalMLPA is and what steps are involved.

For a more technical overview of the digitalMLPA technique we also recommend the video [How does SALSA digitalMLPA work?](#)

Please note that subtitles are available.

In case you're unable to view the video on YouTube you can also download it [here](#).
