## What products are available?

This article was retrieved from [support.mrcholland.com](https://support.mrcholland.com) on Saturday, 21st May 2022.

MRC Holland offers a wide variety of products that cover a large number of genes and genetic disorders. To find out if MRC Holland carries a product for the disorder or gene you are interested in, please visit [mrcholland.com](https://mrcholland.com) and type the gene name/symbol or disorder into the search box on the top right hand side of the webpage, visit our [assay finder](#), or download our [full product catalogue](#).

If we do not have a product for your application then we recommend that you contact us first to discuss the possibilities. You can also design your own MLPA probemix. You can read more about this in [this article](#).
