Which NGS systems can be used for digitalMLPA?

This article was retrieved from support.mrcholland.com on Tuesday, 23rd April 2024.

Our digitalMLPA technique is compatible with all Illumina sequencing platforms. This includes the iSeq, MiniSeq, MiSeq, NextSeq 500/550, NextSeq 1000/2000 and NovaSeq.

The digitalMLPA technique is currently not suitable for other NGS systems, including the Ion Torrent.
